HFHWDC Golf Safety Protocols & Guidelines

Last updated 2/16/2021

- Golfers are asked **NOT TO PARTICIPATE** if:
 - You are experiencing symptoms such as fever, cough, shortness of breath, or loss of taste or smell.
 - You have had close contact with someone who has been diagnosed with COVID-19 within the past two weeks.
- Golfers experiencing symptoms upon arrival or during the course of the day will be immediately sent home.
- All participants and attendees should practice social distancing, maintaining a physical distance of at least six feet as much as possible. We strongly recommend washing your hands frequently and avoiding physical contact such as handshakes.
- We ask that you avoid congregating in large groups on the course.
- All attendees are responsible for bringing a mask and gloves, as applicable.
- Masks should be worn whenever you are within six feet of another person.
- Per Springfield Golf and Country Club protocols:
 - Masks must be worn in the clubhouse.
 - Masks must be worn while in the cart staging area before the shotgun start.
 - All bag room staff will be wearing masks.
 - Bathrooms are being sanitized every hour on course.
 - Driving range balls are cleaned with a disinfectant solution.
 - A limited number of golf cart dividers are available to allow two people to ride with a physical barrier between them. We will try to honor requests but cannot guarantee them.
- For more information, please contact DC Habitat staff at development@dchabitat.org.
